

Welcome to the Magical World of TOTWOO Smart Jewelry

ABOUT TOTWOO

TOTWOO was launched in Milan in 2015 as an interactive jewelry brand that offers interactive emotional experiences. TOTWOO means “TO-TWO-O”, meaning connecting two persons together.

TOTWOO has made jewelry not only a combination of stones and metals, but a smart jewelry that combines wearable and mobile internet technologies. TOTWOO connects you with your loved ones and helps you maintain a healthy lifestyle. TOTWOO promotes a futuristic lifestyle and represents ‘future jewelry’.

1/5

START TOTWOO SMART JEWELRY

- 1 Charge your TOTWOO jewelry using the charger provided.
- 2 Scan the QR code OR go to the App Store to download ‘TOTWOO’ APP.
- 3 Open the ‘TOTWOO’ app (make sure your Bluetooth has been turned on) and follow the instructions on the app to connect with your TOTWOO jewelry.

2/5

CHARGE YOUR JEWELRY

Please remove the insulation patch on the back of the jewelry and charge the jewelry using the charger provided.

When red light illuminates, charging is in progress; when green light illuminates, charging is completed. It takes about 1–1.5 hours for the jewelry to be fully charged; and it can last about 2–3 days depends on usage. You can check battery usage on the totwoo app.

*To use the jewel charging case: the case is incorporated with battery pack so it can be used as a portable power bank after charged.

CUSTOMER SERVICE

All TOTWOO jewelry have been tested strictly to meet international standards and certifications. All TOTWOO jewelry are covered by warranties provided by the law in the selling area. TOTWOO will repair manufacturing/technical faults free of charge up to 1 years, and appearance faults free of charge up to 3 months from the original date of purchase. Please retain your receipt for any warranty service. After warranty, we provide paid repair services. Please note that accidental damage such as scratches, dents and broken pendant are not covered by warranty; silver oxidation, which is normally seen in silver products is not covered either.
